- - pendant
- - standard interior dome
- - ceiling fan
- - outdoor dome
- - vanity light
- - electrical boxes for the later addition of light fixtures

notes

Numbers denote zone / zone is set of lights controlled by designated switch

Kitchen lighting plan is not complete.

Exterior wall hung lights, pendant lights and ceiling fans will be installed on site. All corresponding electrical boxes and switches will, where possible, be installed at the factory.

This plan is lighting only. It does not include electrical outlets or their corresponding switches nor does it contain cable T.V., telephone or internet points.

This plan is for approx. placement purposes only. Final placement will be done to an appropriate grid form taking into account optimal distance placement. This is to be done by The electrician and FHT.

Choice of specific lighting fixtures has yet to be made.

Note addition of lighting for kitchen area.
There will also be a hood fan above cooktop
