Beautiful modern four story house with panoramic views of the Caribbean Ocean; built in 2009, this house is unique in many ways. Each story has suites with a full view of the ocean. This house, affectionately named "CasaMel" can be used as a single family house, or alternatively, each level is configured with two bedrooms separated by an open landing so the house can be offered to international vacation services or divided to accommodate tourists or easily used as a one family house. The first floor has a beautiful kitchen and is fully equipped for entertaining as well as a spacious living room, bedroom and bath. There is a tiled 34 X 6 foot lap pool perfectly placed for sunning and swimming in the entry courtyard. The second and third floors each have 2 bedrooms with their own balconies and baths. And, at the very top, there is a fabulous penthouse with two huge decks and an unobstructed panoramic view of the ocean. CasaMel is located within the city of San Miguel. In San Miguel one can enjoy a great variety of restaurants and the authentic flavor of the island.
