

## 5 Webster Place

Townhouse · Park Slope

This is the first time that 5 Webster Place is being offered in over 25 years!! This prewar Park Slope South townhouse built in 1901 offers some great original prewar details that have been preserved, including gorgeous hardwood floors and a wooden staircase banister. Besides some of the original details being intact, the rest of the home includes a fully renovated bathroom and two nice sized bedrooms. However, the potential buyer would need to renovate the kitchen, as it hasn't been updated for over 50 years. In addition to being located a couple of blocks away from Prospect Park, the townhouse has its own large backyard! So bring your general contractor and imagination to create a place that you can settle into for many of years to come. Zoned RB-5, so additional square footage can be added.
