A Prime Lefferts Gardens townhouse has come to market at a price which will please the buyer who wants to retain stunning turn-of-the-last-century details, but modernize to suit today's needs. This one-family, 2,764 sq ft, 20 wide three-story house has an intricately carved original staircase, stained glass windows, original wainscoting, plaster ceiling medallions, stencil-cut wood room dividers and antique pocket doors and molding, but needs updating. One thing that is for sure: you will be purchasing below market in one of the hottest Brooklyn neighborhoods with historic designation. Bring your contractor and re-imagine this home to suit your desire.
