6 Villas Quisqueya

Townhouse ⋮ Other Interntnl

$399,000

- 1 Unit
- 1 Floors
- 8 Rooms
- 2.5 Baths

5 minutes from both the bustling town center of Las Terrenas and Playa Bonita, one of the most beautiful beaches in the Dominican Republic, is a secure gated community of 6 villas called Villas Quisqueya. Designed by an Argentine architectural firm and Be Design, a renowned local interior design firm specializing in the combination of quality local materials and a minimal Zen sensibility, Villas Quisqueya 6 is a 4BR/2.5BA beauty. The plan flows seamlessly from interior clean lines and archways to an exterior tropical oasis allowing for open air living at its finest. With approx. 1,950 sqft (180 sqmt) of interior space and 1,600 sqft (150 sqmt) of exterior terraces, gardens, pool, pool room, and carport this well-appointed villa features woodwork in Cigua (a type of Acacia wood), polished and tinted cement floors, as well as decorative elements in wood, pebble, iron and coral. The modern kitchen is outfitted with full-sized electric appliances and opens on an outdoor dining area by way of a built-in breakfast bar. The huge great room awaits your next soiree with soaring ceilings and a view of your tranquil private pool, while your master BR features an ensuite bath with access to a small private garden for quiet reflection. 2 extra BRs downstairs and 1 loft BR upstairs allow for ample privacy for you and your guests or generous space for all your nearest and dearest. Why wait? It's the Caribbean lifestyle you're aching to escape to at a price that won't break the bank.
